STAT
MEMORANDUM FOR:[redacted]
T324, NSASTAT
FROM:[redacted]
Acting Deputy Director, Program and Budget Staff

SUBJECT:

Letter of Appreciation

STAT
1. Please express our appreciation to [redacted] of your organization for the exceptional assistance he provided in establishing the initial RJE communications link between the Wang Alliance system and the Admin computer at NSA.

2. As you are aware, the ability to connect the Wang to the Admin machine in a 2780 mode is an integral part of the Community budget system being developed at NSA. Initial attempts to achieve this interface to Wang equipment both at NSA and here on the Intelligence Community Staff were unsuccessful, with considerable doubt expressed by all parties involved that the desired connection could ever be accomplished. However, through Bob's unique knowledge of the Admin computer and his tenacity in experimenting with the Wang system, success was finally achieved. Bob's initiative and hard work were instrumental in proving the feasibility of using the Wang as we had planned, and his special efforts have allowed us to proceed with the system's development with only minimal slippage in schedule.

STAT
STAT
3. We appreciate [redacted] outstanding efforts and urge that his fine performance be recognized by T Group management. He has played an invaluable role in a critical phase of the budget system development.All portions of this memo
are UNCLASSIFIED
